

Présentation

The aim of the MA is: 1/To study the ways in which political ideas have been transformed by scientific progress since the 17th up to the digital age in the 21st century; 2/To understand the nature of politics and democracy and their changes in the digital age; 3/To teach a new generation of students coming from all fields ethics and responsibility in the digital age; 4/To teach thinking skills (critical thinking, problem-solving, creativity, originality, strategizing) for the digital age.

Enjeux

Students are encouraged to spend at least a semester in partner universities.

Admission

Pré-requis

Formation(s) requise(s)

- We are looking for graduates with a 2:1 or above in their first degree. Non-standard applications will be considered on their merits and mature students are encouraged to apply.
- The MA is taught in English and requires a good level to follow and write in English. If your application is selected, an oral interview will assess your level.

Activités visées / compétences attestées

As a graduate, the students should be able to:

- 1/ Synthesise and comment critically on a body of academic writing relating to contemporary political ideas since the 17th century and in a data-intensive environment;
- 2/ Appreciate, analyse, interpret and evaluate political issues, ideas and institutions across a broad variety of sub-fields, in law, history of ideas, political economy and data science;
- 3/ Construct and defend a rigorous argument, both in written form and orally, using primary and secondary materials;
- 4/ Follow and understand why the use of data science by political actors is transforming the nature of politics and government;
- 5/ Acquire soft skills in the field of digital humanities

Poursuites d'études

- PhD level study in political and social sciences. MA students are involved in the AGORA research centre, at CY Cergy Paris University, which is an active research hub distinguished by its diversity, collegiality and interdisciplinary between different approaches. Along with seminars at the UNESCO chair on Digital Innovation in Transmission and Publishing, a diverse group of specialists all linked to a field of research in political ideas, will guide you towards research at a PhD level.
